Our next regularly-scheduled meeting is this coming Monday, February 18, which is a holiday.

There's nothing in particular we have to discuss, thus we are inclined just to stick with our regular schedule and meet you next on Monday, June 17.

Please let us know if you feel otherwise and would like to reschedule the meeting to occur within the next several weeks.

Hi All,

Yes. We're on it. I've been working on the details directly with Jeff Christensen of the VRC (also met with the VRC CEO Doug Caruso) since our last meeting in the CM's office (Oct. 10) at which time we discussed accommodating them with a Facility Use Permit. The VRC was amenable to the staff fee recovery calculations that I presented to them (Staff time only with no other fees). The VRC's most recent requested start date is Monday, January 14, 2019. I informed Mr. Christensen we were good with that date and are ready to go. Rather than a temporary agreement for six months as discussed with the VRC, I'll call Mr. Christensen and inform him we can extend the time frame to one year.

If you have any questions please let me know.

Thanks.

Can you confirm that it's still possible to do this, and that we can get the ball rolling on it asap since they need to be out of their current location by the end of December?

Hi Rick,

As I have told you many times before, the Department of Beaches and Harbors only has so many code enforcement officers, who to be clear- are NOT police officers. They do not have arrest powers or maintain the same powers as police officers. While they can issue citations, and do issue many citations, they cannot be at Venice/Marina all day every day and are responsible for ALL beaches under the County's responsibility area.

For now, the code enforcement officers and Ken's team are doing everything they can. We have asked for the County Department of Public Works to begin assessing sand accumulation issues along the bike path and will continue to update you as that process is identified and determined.

Best,

Stephanie

Ken, I have been trying to contact your boss. I am concerned at your approach to everything? Your dept. is responsible for all things on the beach and yet as I continue to point out to you your lack of effort in enforcement of the beaches. I have told you numerous times about your grading method and how your sand keeps ending up on the public storm drains and then it floods the streets.

That being said, my reason for speaking to John is the lack of enforcement on the beach that is your department's responsibility? Yes there are signs all along the entrance to the public beach that state there are rules when you enter the beach (i.e.) No Camping? No Dogs? No alcohol? Etc. Picture enclosed. I have met with you and other departments (DPW, Parks&Rec. Council, Supervisor Office) regarding the sand issue and yet you still ignore the points I made as well as the city engineer I brought to the meeting at the beach.

Your lack of attention is what I am pointing out to your boss. Thank you.

Sincerely,  
Rick in the marina

Hi Rick,

It's my understanding that you are trying to reach John Kelly in regards to homeless on the beach at Venice. If it's ok, I would like to respond to your concern.

Hopefully, you are aware that the LAPD has resumed enforcement on the beach. For many months, the officers observed a policy of not driving on the beach unless their presence was absolutely necessary. That changed this past week and they have started enforcing encampments on the beach near Rose Avenue. Since I recall that you identified a concern around Hurricane a few months ago, we have contacted the LAPD and asked them to include the beach area south of the pier in their patrol. If there was something different that you needed, please let me know.

Hi Kerry,

I am deeply apologetic! Krista and I got pulled into a last minute emergency meeting at City Hall about Bridge Home. We have a very high profile town hall with the Mayor and police Chief on Wednesday and while no excuse for not calling ahead is really sucking all our attention.

A lot of the items look like Bob Davis items so I am glad he was able to attend. I would just add that I am personally very excited for our Joint City-County meeting re enforcement at LAPD on October 31. LAPD test drove four vehicles they didn't like and are test driving another, very promising vehicle next week. The Department is authorized to purchase I believe 8 vehicles so they will be back on the sand with more capabilities than ever hopefully within a month or at most two. That being said - I know our legal counsels have been talking and gaining access to your trash truck would really be pivotal to a full response to the sort of illegally stored property we see after park closure.

Matt Tecle here is our new Playa del Rey/Westchester Deputy! He is a native to the area so offers especially useful expertise into the history of some of our Dockweiler issues and personalities.

Hi All,

Thanks so much for the meeting yesterday, it was helpful to understand where we are and what still needs to be done. I think County DPW needs to have monthly or bi-monthly meetings with the City to be good

partners in this effort. Krista will let us know who should be at those meetings on the City side to get this worked out.

Marley, Zaire and Daniela will help schedule a follow-up meeting for the end of October where the appropriate City folks can be in the room to discuss maintenance and partnerships.

I have connected Lance to PPCC and the PCH task force for presentation dates and will wait to hear back from Lance on those moving forward. Lastly, I continue to stress the importance of exploring a sand barrier of some sort and I know Maria shares these concerns. Lance, once you get a better handle on what that will look like, please let us know.

Reaching out to request a meeting downtown, separate from the meeting we have been trying to schedule regarding the north end of the bike path. This one will be downtown to discuss a further look into a sand wall project in Venice, along the Marvin Braude Bike Trail. A project like this would need to incorporate all partners and we would appreciate the opportunity to bring all parties together to begin a discussion.

Good Afternoon All,

Since we were unable to set this from the last times that I sent out, I wanted to offer some new dates to see if they worked on your calendars. This meeting would be held at the Kenneth Hahn Hall of Administration.

October 15 3:00-4:00PM

October 22 4:00-5:00PM

October 29 4:00-5:00PM

Please let me know how these dates work on your calendars.

Best,

Marley

**Subject:** Meeting Request- Venice Sand Wall Barrier- Bike Path

Hi Tricia & Bob,

Reaching out to request a meeting downtown, separate from the meeting we have been trying to schedule regarding the north end of the bike path. This one will be downtown to discuss a further look into a sand wall project in Venice, along the Marvin Braude Bike Trail. A project like this would need to incorporate all partners and we would appreciate the opportunity to bring all parties together to begin a discussion.

DPW & B&H folks are on this email, and Marley will coordinate with our downtown deputies to get some dates to send out asap.

Thank you,  
Stephanie

So sorry for the piecemeal emails but I want to share real time updates with you. I just met with the boss and shared your update with him. He expressed concern about the idea of an ROE and that it's not what was discussed during the meeting with he and AP. He would prefer to see RAP staff in the building. Please give me a call when you have a moment to chat about this.

I did meet with Jeff Christensen of the VRC and he sent some detailed information regarding their needs and what they are possibly hoping to work out. At this point, it looks like a Right of Entry permit may be the direction to take but I still need some additional information and will need to further discuss with my management on next steps. I believe GM Shull and AP were due to be out of town this week but I'll be communicating with them on the subject.

Hope to have some good information asap.

Hi All,

Fyi/Heads Up —

At approximately 8:10 p.m. tonight, I received a call from Ken Foreman, County Beaches & Harbors, who received a call from LAFD reporting some flooding adjacent to the Grand Canal at Washington Blvd. I contacted LAFD Battalion Chief Scott Quinn who confirmed the incident and was aware of water levels high enough to affect streets such as Strongs Drive and Via Dolce.

I immediately contacted the City Sanitation Crew that I know normally handles the gates controlling the water level in the Grand Canal coming in from the marina/ocean. They advised of an ETA at the location of 9:30 p.m. Sanitation made contact with the company who manages the gates at Washington Blvd. controlling the water level in the Venice Canals north of Washington. That company is en route and is expected to arrive shortly thereafter and coordinate with City Sanitation to investigate and resolve the problem.

The August Coastal Commission hearing I wrote about is as to the City's beach curfew code provision, not the toilet/hand-washing facilities.

Ken was called today by Grant Turck about Friday's event and asked to provide transportation for the Supervisor and the City Controller. We will definitely be able to accommodate that request. We weren't previously aware of that event and don't know yet about our availability. We'll let you know.

As regards scheduling a new date for our meeting, let me find out about my potential jury duty and get back to you all. I'll be back in court on Tuesday and hope I'm released that same day!!

The Coastal Commission already gave a waiver for the activity and the Board of Supervisors passed a supporting motion this morning at their regular meeting. Let us know when you are able to do a meeting - it is always a highlight of my quarter to touch base with our B&H friends!

In other news - I was about to email you anyhow because Supervisor Kuehl will be on Venice Beach at the plaque dedication this Friday at 1pm (something you might join us for or already have planned to attend) - last time I arranged an LAPD transport for her since she can't walk on sand but since LAPD is using quads instead of vehicles I wanted to make sure you all might be able to arrange a transport for her from the Beach Substation to the rainbow flag lifeguard tower.

Unfortunately, we need to either reschedule or simply cancel next week's regularly-scheduled meeting (currently scheduled for Monday, June 18, at 2:00 p.m.).

Although we're already into the summer season, there's nothing particularly unusual occurring, but for the operation of the Lava Mae portable showers in the Rose Avenue lot, the future operation by the City of two portable toilet and hand-washing facilities in the Rose Avenue lot between the hours of 10:00 p.m. and 6:00 a.m. (removed every morning and returned every night), and the August Coastal Commission hearing on the City's CDP application for its beach curfew provision. All of these are being addressed between the Councilman's Office and Supervisor Kuehl's Office, and we attend meetings as they occur. Currently, Supervisor Kuehl's Office has been communicating with Deputy Chief Tricia Keane about a meeting re the Coastal Commission hearing.

Let us know if you'd prefer rescheduling or canceling the meeting. We're fine with either. I may be caught up in a five-week jury trial (I know, awful, right?!), which I'll know more about next week. If we're going to reschedule the meeting, we'll need to hold off in comparing our calendars until I find out if I'm going to be enlisted into involuntary servitude...

All that is necessary for you to know now, however, is that **this coming Monday's meeting is off calendar**.

Hope all of you are doing well. Happy summer!

Thanks for your quick responses today, Bob. Really appreciate it.

Hold both meeting dates for now until I hear from Councilman Bonin's folks. We're all good here on either of those dates.

Note that Ken has discovered we'd be at work when nobody else would be, if we met on Monday, February 19, President's Day! Looks like we'll need to reschedule.

Do either of the bookend Mondays at 2:00 p.m. work for you at the City, February 12 or 26?

Hey Kerry,

Just noticed while working on my calendar that Feb. 19th is President's Day.

Welcome aboard, Krista!

We meet quarterly here at our Administration Building in the Marina with Westside staff of the Councilman, as well as Bob Davis of the City's Recreation and Parks Department, to discuss issues of mutual interest. As Anna has indicated, our next meeting is scheduled for Monday, February 19, at 2:00 p.m.

If you would like to meet (or just chat) before then – for instance, about what we do, who we are, what issues are “hot,” etc. – feel free to reach out earlier!
